PRESS RELEASE

Gilat Awarded \$99-Million Project from Colombia's MINTIC Ministry of Information, Technology and Communications to expand Internet kiosk (Kioscos Digitales) deployment and connectivity to schools and communities in rural areas

PETAH TIKVA, Israel, 18 December 2013 – Gilat Satellite Networks Ltd. (Nasdaq:GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that it has been awarded a project valued at \$99-million over approximately three and a half years. The contract for the project is expected to be signed shortly. In support of the Kioscos Digitales project, Gilat will provide Colombia's Ministry of Information and Technology (MINTIC) Connectivity Division with deployment and connectivity services to rural communities and schools within the framework of the Ministry's national Kioscos Phase 2/VIVE DIGITAL project.

MINTIC, a long-time Gilat customer has already used services based on Gilat SkyEdge II VSATs, including SkyEdge II WebEnhance, in nearly 4,000 rural communities and schools. This latest project, valued at \$99 million, includes 10 months of rural Internet and telephony deployment, plus three years of connectivity and educational training services for more than 1,900 digital kiosks in two regions.

"We are very happy to have been awarded this project to help MINTIC provide Internet and telephony services as part of its commitment to provide digital inclusion, development and employment to rural Colombian residents," said Erez Antebi, CEO of Gilat Satellite Networks. "It is very satisfying to see an organization such as MINTIC continue to rely on Gilat's ability to provide technology and services of this size and scope."

Kioscos Digitales is an initiative of the Ministry of Information Technologies and Communications which aims to provide community Internet access points to 100% of the population centers of more than 100 people, by 2014. The project is focused on rural areas and remote locations as part of the aim to achieve digital inclusion of children, youth and adults of all ages.

About MINTIC

The Ministry of Information Technology and Communications is the entity responsible for the design, adoption and promotion of policies, plans, programs and projects in the field of information technology and communications.

Among its functions is to increase and facilitate information technologies and communications access to all residents of the country. For more information, please visit

About Gilat

Gilat Satellite Networks Ltd. (Nasdaq:GILT) (TASE:GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 85 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions.
