“"The second quarter and the remainder of 2015 are negatively impacted by two main factors. The first is the weaker than expected performance of our Defense sector, mainly resulting from delayed orders from the US DOD and other clients, coupled with lower than expected margins. The second factor is the lower than expected performance of the Colombia Kioscos project, coupled with the sharp devaluation of the Colombian Peso."
“However, we see a stronger second half which will accelerate in Q4 due to growth in all sectors, mainly in our projects in Peru,” said Dov Baharav, Interim CEO and Chairman of the Board of Gilat.

“I am very proud to announce a key development in our HTS business. Gilat is partnering with leading China Satellite Communication Companies to provide multiple network segments and VSAT terminals for the first Ka HTS multi-spot beam satellite ChinaSat 16. This agreement presents a major opportunity to develop a long term substantial relationship with our new partners in China to drive further potential business,” Mr. Baharav highlighted.

“With the reassurance of our growth drivers’ strength, namely HTS, Cellular Backhaul, airborne mobility and the exceptionally large funnel of deals we have, we are optimistic about the business outlook for 2016 and beyond for Gilat,” concluded Mr. Baharav

(1) The attached summary financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). The attached summary financial statements are unaudited. To supplement the consolidated financial statements presented in accordance with GAAP, the Company presents Gilat's EBITDA before the impact of non-cash share-based payment charges, depreciation and amortization, other income and other costs related to acquisition transactions. Non-GAAP presentations of net income, operating income, EBITDA and earnings per share are provided to enhance the understanding of the Company's historical financial performance and comparability between periods.
