Yona Ovadia, CEO of Gilat, commented:

“I am pleased to report that the second quarter of 2018 was another strong quarter for Gilat. We continued the trend of improvement in profitability as well as continued growth momentum in our business, as evidenced with the following achievements:

“In our strategic area of LTE cellular backhaul we have secured two additional wins, one with Telstra in Australia and the other with a major MNO in Latin America. In both these areas of the globe, Gilat was selected for its recognized global leadership in large, efficient and reliable LTE networks, which is what the businesses and residents in the remote locations of these countries expect and are willing to pay for.

“The win in LATAM is joined by the announcement on an expansion of our relationships with Hispasat for the delivery of affordable high quality broadband services to consumers and enterprises in the vast areas of Brazil that currently do not have this service, which marks our continued efforts and recovery of the business in this key part of the world.

“Finally, we also announced the win of two new regional telecommunications infrastructure projects for Fitel in Peru, bringing Gilat’s awarded regions to six out of the 13 regions. Gilat’s long term goal in Peru is for multi-year high margin recurring revenues from services, which is the motivation for these projects rather than the construction dollars.”

Mr. Ovadia concluded: “We remain committed to our target of improving the bottom line, and are confident that as capacity prices continue to decrease and demand grows, new opportunities will continue to be generated. This, together with our ongoing significant investment in R&D will drive further momentum in our strategic growth engines.”

Non-GAAP Measures

The attached summary unaudited financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). To supplement the consolidated financial statements presented in accordance with GAAP, the Company presents Non-GAAP presentations of net income, operating income, Adjusted EBITDA and earnings per share. The adjustments to the Company's GAAP results are made with the intent of providing both management and investors a more complete understanding of the Company's underlying operational results, trends and performance.

Adjusted EBITDA (operating income before depreciation, amortization, non-cash stock option expenses, costs related to acquisition transactions, restructuring cost, goodwill impairment, impairment of long lived assets, trade secrets litigation expenses and expenses under amnesty program) is presented to compare the Company's performance to that of prior periods and evaluate the Company's financial and operating results on a consistent basis from period to period. The Company also believes this measure, when viewed in combination with the Company's financial results prepared in accordance with GAAP, provides useful information to investors to evaluate ongoing operating results and trends. Adjusted EBITDA, however, should not be considered as an alternative to operating income or net income for the period and may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results. Adjusted EBITDA is not a measure of financial performance under GAAP and may not be comparable to other similarly titled measures for other companies. Reconciliation between the Company's Operating income and Adjusted EBITDA is presented in the attached summary financial statements.

This news release also contains a forward-looking estimate of Adjusted EBITDA projected to be generated by Gilat in 2018. A forward-looking estimate of net income and reconciliations of the forward-looking estimates of Adjusted EBITDA to net income are not provided because the items necessary to estimate net income are not estimable at this time. Non-GAAP presentations of net income, operating income, Adjusted EBITDA and earnings per share should not be considered in isolation or as a substitute for any of the consolidated statements of operations prepared in accordance with GAAP, or as an indication of Gilat's operating performance or liquidity.

(*) In November 2016, the Financial Accounting Standards Board (the "FASB") issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash", which requires companies to include amounts generally described as restricted cash and restricted cash equivalents in cash and cash equivalents when reconciling beginning-of-period and end-of-period total amounts shown on the statement of cash flows. ASU 2016-18 is effective for annual and interim periods beginning after December 15, 2017. The Company adopted this standard during the first quarter of 2018 using the retrospective transition method, as required by the new standard.
