# GILAT PRESS RELEASE

## Gilat Reports Q1 2020 Results

**Petah Tikva, Israel – June 3, 2020** – Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today reported its results for the first quarter ended March 31, 2020.

### Key Financial Highlights:

- Revenues for Q1 2020 totaled \$47.7 million compared with \$62.1 million for Q1 2019.
- Results for the quarter:
  - o Q1 2020 - GAAP operating loss was \$10.8 million compared to operating income of \$4.5 million in Q1 2019. Q1 2020 Non-GAAP operating loss was \$7.6 million compared to Non-GAAP operating income of \$5.6 in Q1 2019.
  - o Q1 2020 GAAP net loss was \$11.8 million, or loss of \$0.21 per diluted share, compared with net income of \$2.8 million, or income of \$0.05 per diluted share in Q1 2019. Q1 2020 non-GAAP net loss was \$8.6 million, or \$0.15 per diluted share, compared with net income of \$4.0 million, or \$0.07 per diluted share, in Q1 2019.
  - o Q1 2020 Adjusted EBITDA loss was \$5.0 million compared with Adjusted EBITDA of \$8.2 million in Q1 2019.
  - o The results of the first quarter of 2020 were significantly impacted by the COVID-19 outbreak. The pandemic has had an adverse impact on Gilat's different segments though to varying degrees. It has significantly impacted the travel and aviation markets in which Gilat's IFC customers operate and has resulted in a slowdown of our business with these customers. Other parts of Gilat's business such as the Fixed networks and Cellular Backhaul have demonstrated relative resilience, however order postponements and delays were experienced. In order to mitigate the impact to the business, Gilat executed a plan to reduce expenses, including a reduction in headcount as well as other cost-saving measures.

The acquisition of Gilat by Comtech Telecommunications Corp ("Comtech") was approved at the general meeting of Gilat's shareholders held on May 8, by shareholders representing approximately 99.7% of the Gilat shares present and voting at the meeting. The acquisition remains subject to certain conditions to closing, including regulatory approval in Russia from the Federal Antimonopoly Service, which had notified Comtech in May 2020 that it was extending the review period for Comtech's application pending a decision under the Foreign Investment Law whether approval is required from the Chairman of the Russian Government Commission for Supervising Foreign Investments.

### Non-GAAP Measures

The attached summary unaudited financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). To supplement the consolidated financial statements presented in accordance with GAAP, the Company presents Non-GAAP presentations of net income, operating income, Adjusted EBITDA and earnings per share. The adjustments to the Company's GAAP results are made with the intent of providing both management and investors a more complete understanding of the Company's underlying operational results, trends and performance. Non-GAAP financial measures mainly exclude the effect of stock based compensation, amortization of purchased intangibles, lease incentive amortization, litigation expenses, income related to trade secrets claims, re-organization costs, merger and acquisition costs, expenses for tax contingencies to be paid under an amnesty program and initial recognition of deferred tax asset with respect to carry-forward losses.

Adjusted EBITDA is presented to compare the Company's performance to that of prior periods and evaluate the Company's financial and operating results on a consistent basis from period to period. The Company also believes this measure, when viewed in combination with the Company's financial results prepared in accordance with GAAP, provides useful information to investors to evaluate ongoing operating results and trends. Adjusted EBITDA, however, should not be considered as an alternative to operating income or net income for the period and may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results. Adjusted EBITDA is not a measure of financial performance under GAAP and may not be comparable to other similarly titled measures for other companies. Reconciliation between the Company's Operating income and Adjusted EBITDA is presented in the attached summary financial statements.

Non-GAAP presentations of net income, operating income, Adjusted EBITDA and earnings per share should not be considered in isolation or as a substitute for any of the consolidated statements of operations prepared in accordance with GAAP, or as an indication of Gilat's operating performance or liquidity.
