

GILAT PRESS RELEASE

Tier-1 Mobile Network Carrier in Japan Expanding Their 4G Cellular Network with Gilat's Backhaul over Satellite

Gilat receives order for additional VSATs to enable the operator's 4G/LTE network growth

Petah Tikva, Israel, January 6, 2022 -- Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today it has received an order for additional VSATs from its Tier-1 mobile network carrier customer in Japan.

Using Gilat's unique SkyEdge II-c cellular backhaul system, the mobile network carrier will be expanding their cellular backhaul over satellite. This will enable further growth of their 4G/LTE network into rural zones that are lacking fiber access.

"This additional order is a vote of confidence and a testament to the quality and effectiveness of our cellular backhaul over satellite solution," said Michal Aharonov, Chief Commercial Officer at Gilat. "As a flexible and modular platform, SkyEdge II-c can readily support the advanced features present in the operator's open architecture. With technology that enables timely deployment for network extension, Gilat is helping to create a dynamic that massively benefits the local population, as well as setting an enviable example of implementation that can be used by similar MNOs in other countries."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With 30 years of experience, we design and manufacture cutting-edge ground segment equipment, and provide comprehensive solutions and end-to-end services, powered by our innovative technology. Delivering high value competitive solutions, our portfolio comprises of a cloud based VSAT network platform, high-speed modems, high performance on-the-move antennas and high efficiency, high power Solid State Amplifiers (SSPA) and Block Upconverters (BUC).

Gilat's comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, cellular backhaul, enterprise, in-flight connectivity, maritime, trains, defense and public safety, all while meeting the most stringent service level requirements. Gilat controlling shareholders are the FIMI Private Equity Funds. For more information, please visit: www.gilat.com
