

GILAT PRESS RELEASE

Tier-1 MNO Awards Multimillion-Dollar Order to Gilat for 4G Cellular Backhaul Network Expansion in Latin America

Petah Tikva, Israel, July 19, 2022 -- Gilat Satellite Networks Ltd. (Nasdaq: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today it received a multimillion-dollar order from a Tier-1 mobile network operator (MNO) in Latin America.

Gilat is providing its globally-proven SkyEdge II-c platform with Capricorn VSATs for 4G cellular backhaul. The MNO will also benefit from Gilat's world-class technical support services, operations assistance, and field installation services.

The MNO will leverage Gilat's backhaul over satellite equipment and services to expand their 4G cellular network, which is one of the largest in the region.

"As this customer grows its 4G network, Gilat is proud to provide them with the equipment and services needed for timely deployment, commissioning, and activation of their satellite backhaul services," said Michal Aharonov, Chief Commercial Officer at Gilat. "Customers like this one are coming back to Gilat for further network extensions and this order represents another example of the confidence MNOs have in Gilat's CBH solution."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With 30 years of experience, we design and manufacture cutting-edge ground segment equipment, and provide comprehensive solutions and end-to-end services, powered by our innovative technology. Delivering high value competitive solutions, our portfolio comprises of a cloud based VSAT network platform, high-speed modems, high performance on-the-move antennas and high efficiency, high power Solid State Amplifiers (SSPA) and Block Upconverters (BUC).

Gilat's comprehensive solutions support multiple applications with a full portfolio of products to address key applications including broadband access, cellular backhaul, enterprise, in-flight connectivity, maritime, trains, defense and public safety, all while meeting the most stringent service level requirements.
