

Press Release

Gilat Expanding into Additional IFC Market Segments After Receiving Over \$3 Million in Orders from a Leading IFC Service Provider

Service provider's initial order for Taurus Modem significantly expands Gilat's In-Flight Connectivity footprint into Business Aviation and Government markets

Petah Tikva, Israel, April 8, 2024 — Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that a leading IFC Service Provider is expanding its In-Flight Connectivity (IFC) capabilities with a strategic multimillion-dollar order mainly for Gilat's Taurus Aero modems.

Taurus is an ultra-high-performance modem solution for In-Flight Connectivity (IFC) already deployed globally across tens of commercial airlines. Taurus delivers all satellite communication needs for multi-orbit constellations and Very High Throughput Satellites (VHTS) and enables the delivery of reliable, high-performance connectivity solutions to air travelers.

"We are honored to have been selected once again to expand and upgrade mission-critical In-Flight Connectivity services," said Amir Yafe, VP of Mobility & Global Accounts at Gilat. "This selection underscores the trust and confidence that industry leaders place in Gilat's advanced satellite communication solutions. We look forward to continuing to drive innovation and deliver superior IFC experiences to aviation customers around the world."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat's comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
