

Press Release

Gilat Awarded Over \$9M to Support Critical Connectivity Requirements for the US Department of Defense

Technical and Field Services to be deployed in Europe, Middle East and US for US DoD Programs

Petah Tikva, Israel, July 2, 2024 —Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that Gilat's wholly owned US-based subsidiary, DataPath Inc, received over \$9 million in orders in support of the US Department of Defense and other agencies worldwide participating in Field Service and Technical Service Programs.

DataPath is deploying technical services and field services in Europe, the Middle East, and the United States to support U.S. Defense end users' critical connectivity requirements. These orders include both contract extensions and new contracts from various partners and agencies.

“In addition to being a leading provider of ground systems and transportable antenna technology, we are extremely proud of the vital work our field service personnel perform every day,” said **Nicole Robinson, President of DataPath, Inc.** “These highly trained and experienced personnel are the heart of what we do in the field and a direct reflection of our commitment and passion for supporting our men and women in uniform.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we create and deliver deep technology solutions for satellite, ground, and new space connectivity and provide comprehensive, secure end-to-end solutions and services for mission-critical operations, powered by our innovative technology. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Our portfolio includes a diverse offering to deliver high-value solutions for multiple orbit constellations with very high throughput satellites (VHTS) and software-defined satellites (SDS). Our offering is comprised of a cloud-based platform and high-performance satellite terminals; high-performance Satellite On-the-Move (SOTM) antennas; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense, field services, network management software, and cybersecurity services.

Gilat’s comprehensive offering supports multiple applications with a full portfolio of products and tailored solutions to address key applications including broadband access, mobility, cellular backhaul, enterprise, defense, aerospace, broadcast, government, and critical infrastructure clients all while meeting the most stringent service level requirements.
