

Press Release

Gilat Awarded Up to \$23 Million Multi-Year Contract to Service Satellite Transportable Terminal Units for US DoD Customers

Gilat Defense will ensure the operational readiness of critical SATCOM systems worldwide

Petah Tikva, Israel, April 7th, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that Gilat Defense, was awarded a contract to provide ongoing sustainment and support services for Satellite Transportable Terminal (STT) units deployed worldwide in support of U.S. Department of Defense (DoD) customers. The contract includes a base program with options to extend up to five years, totaling up to \$23 million.

Under the agreement, Gilat Defense will deliver critical program management, field services, and technical support, ensuring operational readiness and continued reliability of these vital communication assets.

“We are proud to receive awards such as this program” said **Nicole Robinson, President of Gilat DataPath**. “It underscores the level of quality and core capability we bring to our customers.” Robinson added, “This contract reinforces the ongoing critical nature of our SATCOM systems in supporting the U.S. DoD’s global operations. We remain committed to delivering superior performance and service to our trusted defense partners worldwide.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
