

## Gilat Receives a Multimillion Order from a Global Defense Organization

*Gilat Defense delivering advanced antenna technology to be integrated into defense communication systems*

**Petah Tikva, Israel, April, 15<sup>th</sup>, 2025** — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today its Defense Division received a Multimillion order from a Global Defense Organization for the supply of advanced antenna technology to be integrated into the organization's advanced defense communication systems. Deliveries are scheduled towards the end of 2025.

Gilat's antenna solutions are designed to support secure and resilient connectivity under the most demanding conditions, helping defense organizations stay connected, anywhere, anytime. This win reflects Gilat's ongoing commitment to delivering high-performance solutions that meet the stringent requirements of defense applications worldwide.

"This order builds on our strong partnership, reflecting the trust earned through consistent performance and technological excellence," said Gilad Landsberg, President of Gilat Defense. "It highlights the value our partners place on our advanced defense communications and our ongoing commitment to their missions."

## About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
