

Gilat Secures \$27 Million for Gilat's Stellar Blu Portfolio

Orders and deliveries highlight continued interest in Stellar Blu Sidewinder ESA terminal for commercial, business and defense aviation markets

Petah Tikva, Israel, June 10, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that its Commercial Division secured \$27 million for Gilat Stellar Blu's ESA Terminal technology. Deliveries are expected primarily over the next 12 months.

Gilat Stellar Blu's compact, high-performance, multi-orbit ESA terminal, technology, products and solutions are gaining traction across the aviation market as they are designed to meet the increasing connectivity demands of commercial, business and defense airborne platforms. The platform enables high-capacity communications with the agility and scalability required for next-generation aviation networks.

The market for airborne communications is seeing strong momentum, with sustained investment from all sectors. This trend supports continued demand for innovative, high-value connectivity solutions worldwide.

"These orders and deliveries represent an important step forward in the continued expansion of our Sidewinder platform," said Tracy Trent, President of Gilat Stellar Blu. With Gilat Stellar Blu's innovation and momentum, we're enabling more and more agile, scalable, and mission-critical airborne communications solutions for commercial, business and defense sectors."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries—Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu—we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
