One Orchestrated Solution for Stronger Communities

Bringing technology, infrastructure and services together to improve access to essential services and help communities become safer and more resilient

GOVERNMENT + ENTERPRISE

The Right Solution for Every Region

Gilat orchestrates technology, expertise and partners within a unified ecosystem, shaping each solution around the needs of every customer and the communities that depend on it.

One Partner Throughout the Entire Lifecycle

01.

Design & Integration

We adapt the architecture and integrate the technologies each project needs

02.

Deployment & Logistics

We coordinate partners and field teams, including in remote areas

03.

Operations & Monitoring

We supervise networks and platforms to support day-to-day operations

04.

Support & Maintenance

We provide technical assistance to sustain operational continuity

From Design to Everyday Operation

We start with your operational needs, bring in the right technologies and partners, and stay with you through deployment, operations and long-term support.

Why Gilat

Connectivity and Infrastructure

Satellite across GEO, MEO and LEO, fiber and wireless networks to extend connectivity across different environments

Platforms and Intelligence

Digital applications, cloud-based network platforms, data, AI and operational intelligence to support decisions

Engineering and Integration

Solution architecture and integration across Gilat technology, third-party platforms and existing customer systems

Execution and Managed Services

Field deployment, logistics, network operations centers, monitoring, maintenance and technical support

What This Means for You

Simpler coordination	One partner aligns technologies, specialist partners and field teams throughout the project
A solution that fits	An architecture shaped around your needs and the systems you already use
Operational continuity	Monitoring and ongoing support help keep essential networks and services running
Room to grow	Scalable solutions can evolve as demand, coverage and service needs change

Experience Behind the Promise

Gilat combines global technology capabilities with local execution, delivering and operating communications networks and integrated programs for governments, service providers and critical operations.

57,000+

Schools and classrooms connected

9,000+

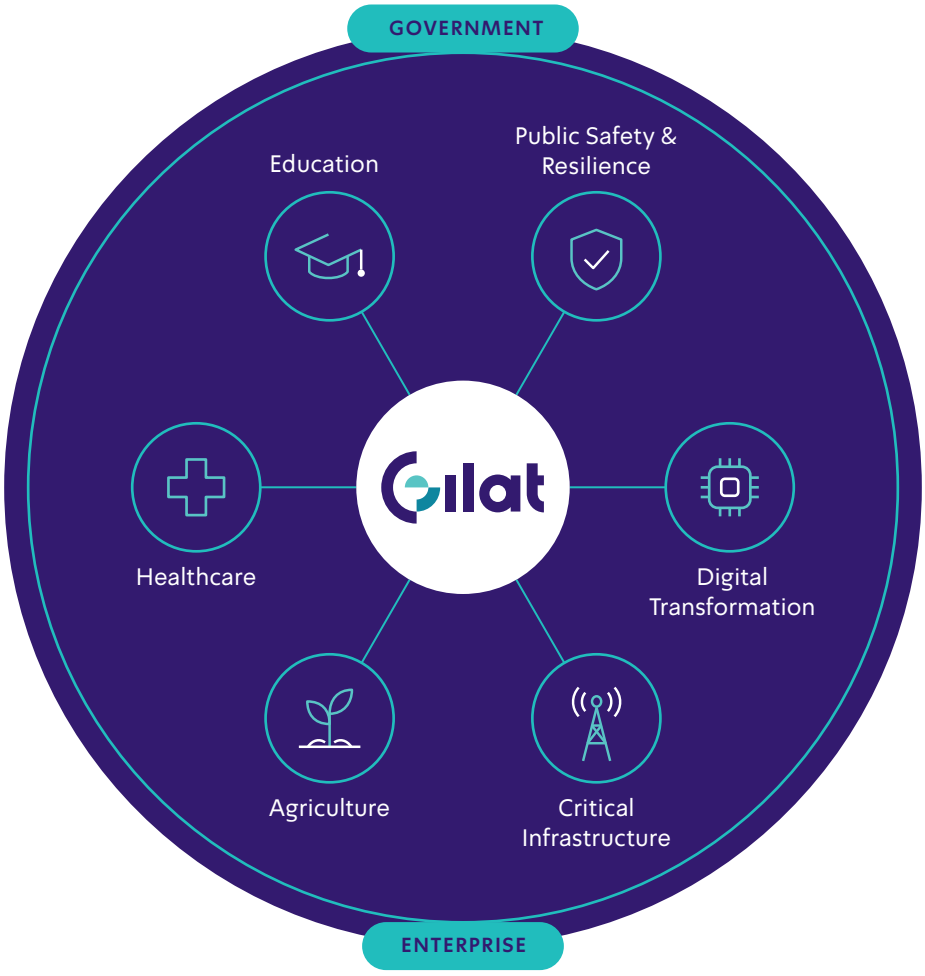

Locations connected and operated

2,500+

Public access points and telecenters delivered

Integrated Solutions for the Services Communities Rely On

We combine sector applications with the infrastructure, connectivity and operational services needed to make them work.

Education

Connect schools and classrooms with digital learning platforms and ongoing support

Public Safety & Resilience

Bring together early warning, emergency communications and command capabilities

Digital Transformation

Integrate government and enterprise platforms with existing systems to improve services

Critical Infrastructure

Integrate resilient communications and monitoring for essential assets and operations

Agriculture

Bring connectivity, data and digital services together for agriculture and rural communities

Healthcare

Connect health facilities and platforms to support remote consultations and access to care

Let's Build the Solution Your Communities Need
