

## Press Release

### **Gilat Receives a Multimillion Contract from Israel's Ministry of Defense for Advanced Strategic Defense SATCOM Project**

*Gilat Defense will manufacture and deliver a solution tailor made for the MoD's specific requirements*

**Petah Tikva, Israel, August 12, 2025** — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that its defense division, Gilat Defense, has been awarded a multimillion dollar contract by Israel's Ministry of Defense for the delivery and integration of satellite communication systems and services. Deliveries are expected before the end of 2025.

The contract includes the rapid deployment of advanced SATCOM systems tailored to meet the operational requirements of Israel's defense forces. These systems are developed and engineered for operation in harsh and unpredictable environments, making them ideal for a wide range of military communication needs.

"We continue witnessing the fact that SATCOM is becoming a very important and critical tool for Defense forces around the world. As a leading developer and supplier

of such mission critical solutions we are proud to deliver a tailor-made, time-sensitive solution for the Israeli Ministry of Defense,” said **Gilad Landsberg, President of Gilat Defense**. “This achievement reflects our ability to meet complex operational needs with speed and precision.”

### **About Gilat**

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries, Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat’s products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
