

Press Release

Gilat Receives \$7 Million Order for In-Flight Connectivity Solution

The Aerostream BUCs are designed to enable robust, high-speed In-Flight Connectivity across both LEO and GEO satellites

Petah Tikva, Israel, November 5, 2025 — Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that its Commercial Division received an order of \$7 million for Gilat Wavestream's Aerostream 60W Ka-band Wideband BUCs. These units will be deployed as part of a next-generation In-Flight Connectivity (IFC) solution to be installed on commercial aircraft. Deliveries are expected over the next 24 months.

The Aerostream 60W Ka-band Wideband BUC operates in the 27.5 to 30.0 GHz range and is designed to enable robust, high-speed In-Flight Connectivity across both LEO and GEO satellite constellations. The product has successfully passed the aircraft manufacturers' line-fit certification, demonstrating Gilat Wavestream's ability to meet the most demanding environmental, reliability, and performance standards required for commercial aviation platforms.

Gilat was chosen based on the company's proven experience in delivering ruggedized, high-efficiency RF solutions for airborne connectivity. The new production orders mark

the culmination of a successful joint qualification program completed in the third quarter of 2025.

“We are pleased to have passed the line-fit qualification tests and to see continued adoption of our state-of-the-art Ka-band SSPAs for In-Flight Connectivity across LEO and GEO satellite constellations,” said **Edgar Khachatryan, President at Gilat Wavestream**. “This achievement underscores our commitment to performance, quality, and on-time delivery in support of the world’s leading aviation connectivity providers.”

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries, Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems; high-performance satellite terminals; advanced Satellite On-the-Move (SOTM) antennas and ESAs; highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat’s products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
