

Press Release

Gilat Receives Approximately \$10 Million Order for Direct Downlink Earth Observation Solution

New award expands Gilat Defense's portfolio of advanced capabilities

Petah Tikva, Israel, December 2, 2025 – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that Gilat DataPath has been selected to deliver a customized Earth Observation Solution. The order, valued at approximately \$10 million, will be delivered within the next 12 months. This award reflects the continued expansion of Gilat Defense's portfolio of specialized capabilities beyond satellite communications and into the earth observation and geospatial insights domain.

The tailored solution leverages satellites equipped with various sensors to provide real-time data for intelligence, surveillance, reconnaissance, and situational awareness. The capability will deliver a first-to-market, transportable direct downlink terminal to enable secure, timely and trusted delivery of earth observation insights in remote locations.

"Nations today rely on resilient, mission-tailored insights and intelligence as they seek to understand the security environment, humanitarian assistance and first responder efforts," said **Nicole Robinson, President of Gilat DataPath**. "This award underscores confidence in our ability to deliver customized Earth observation capabilities based upon our time tested and trusted SATCOM terminal solutions that enhance operational performance. We are proud to support our customer's mission and continue broadening our offerings."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for

critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a cloud-based platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, broadband access, cellular backhaul, enterprise, aerospace, broadcast, and critical infrastructure clients all while meeting the most stringent service level requirements.
