

Press Release

Gilat Receives Approximately \$11 Million SkyEdge Platform Order from Leading Satellite Operator in Asia Pacific

SkyEdge to power services over Very High Throughput Satellites for multiple applications

Petah Tikva, Israel, January 20, 2026 – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, today announced that its Commercial Division received a contract for approximately \$11 million for its SkyEdge platform from a leading satellite operator in the Asia Pacific region. The platform will be deployed to deliver services over Very High Throughput Satellites (VHTS) supporting multiple applications. Deliveries are expected over the next 12 months.

The SkyEdge platform was selected for its proven performance in high-capacity networks, flexibility to support diverse service profiles, and ability to scale with evolving market demands. The deployment will enable the operator to efficiently deliver advanced mobility services while maximizing the value of its VHTS satellite assets.

“We are proud to support this customer’s VHTS strategy with a SkyEdge platform that is purpose-built for high capacity, multi-application satellite networks,” said **Ron Levin**,

President, Gilat Commercial Division. “This deal reflects the strong confidence operators continue to place in Gilat’s technology and our ability to deliver reliable, future-ready solutions for complex satellite environments.”

The order underscores Gilat’s leadership to support the growing global demand for robust ground systems capable of supporting next-generation VHTS satellites and a wide range of commercial applications.

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat’s products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
