

Gilat to Showcase Advanced Defense Connectivity Solutions at Satellite 2026

Gilat Defense empowers defense forces with integrated communications solutions built for mission-critical operations

Petah Tikva, Israel, March 3, 2026 – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that its defense division, Gilat Defense, will showcase a comprehensive suite of advanced defense-grade connectivity technologies at Satellite 2026, taking place March 23-26 in Washington, D.C.

At the show, Gilat Defense will showcase proven solutions offering multi-domain and multi-orbit flexibility, as well as integrated commercial technologies to enhance defense capabilities.

Visitors to the Gilat Defense booth will experience hands-on demonstrations and interactive displays across a wide range of defense technologies, including:

- High-performance defense modems including the GLT 2000 SDR and SkyEdge IV DS modems

- Earth Observation Mobile Ground Stations enabling fast field-level access to imagery and data
- Unmanned connectivity solutions, supporting UAVs operational links
- Portable and transportable terminals engineered for rapid deployment in contested areas, including the DKET Family
- High-power SSPAs supporting tactical and strategic missions, including the PowerStream SSPA family and the EnduroStream BUCs

Together, these solutions and others reinforce Gilat Defense’s role as a trusted provider of resilient, field-proven communications systems that empower mission success across multiple operational theaters, on land, sea, air and space.

Visit Gilat Defense at Satellite 2026

Gilat Defense invites attendees to visit Booth 2923 to explore the full range of defense communications technologies, meet with product and engineering experts, and learn how Gilat Defense is shaping the future of mission-critical connectivity.

Schedule a meeting today through the following [link](#).

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat’s products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
