

## Press Release

### **Gilat to Highlight Next-Generation Satellite Connectivity Technologies at Satellite 2026 – “Expanding 5G to Space”**

*Gilat accelerates the future of 5G NTN multi-orbit, multi-service connectivity for global mobility and broadband markets*

**Petah Tikva, Israel, March 5, 2026** – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that it will showcase a comprehensive suite of advanced next-generation satellite communications solutions at Satellite 2026, taking place March 23-26 in Washington, D.C.

At the event, Gilat will present its leadership in enabling advanced connectivity across GEO, MEO, and LEO constellations, supporting a diverse set of applications across mobility, enterprise, aviation, and broadband markets.

- **SkyEdge IV**, the next-generation multi-orbit satellite networking platform with evolution path to 5G NTN
- **ESA terminals**, including Sidewinder and ESR-2030, designed for high-performance mobility and IFC services

- High-power **SSPAs** for TWTA replacement, offering efficiency, reliability, and long-term operational value
- **IFC terminals** supporting all aviation market segments, from regional to long-haul fleets, with high-speed, resilient connectivity
- **Digital Inclusion Solutions** that extend broadband access to remote and underserved communities

Together, these technologies and solutions demonstrate Gilat's ability to deliver scalable, high-performance satellite connectivity solutions that address the evolving needs of global connectivity, even in the most remote locations.

### Visit Gilat at Satellite 2026

Gilat invites attendees to visit Booth 2821 to meet with Gilat's executives and technology experts to explore the full portfolio of commercial satellite communications solutions and learn how Gilat is shaping the future of multi-orbit, multi-service connectivity for the world's most demanding networks.

To arrange a meeting, please schedule through the following [link](#).

### About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
