Gilat Receives Multi-Million Dollar Order for Customized SATCOM Terminals Supporting European Defense Communications

Award reinforces growing European defense demand for Gilat Defense's resilient, multi-orbit communications solutions

Petach Tikva, Israel, June 24, 2026 - Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, today announced that it received a multi-million dollar order to supply custom SATCOM terminals to a European Ministry of Defense, further demonstrating the Company's expanding role in delivering resilient connectivity solutions for mission-critical defense applications. Delivery is expected over the next 12 months.

Built for mission-critical performance, Gilat DataPath's custom SATCOM terminals are engineered to deliver reliable connectivity in even the most challenging environments. Purpose-built to meet unique operational requirements, these tailored systems combine ruggedized construction with advanced, multi-orbit operability to ensure resilient communications even in the harshest, most unpredictable environments.

"This award reflects the continued trust defense organizations place in Gilat's field-proven technologies," said **Nicole Robinson, President of Gilat DataPath**. "As global defense requirements evolve, the need for resilient, flexible and mission-ready communications continues to accelerate. Gilat DataPath is well positioned to support this growing demand with advanced solutions designed for the most challenging operational environments."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and Electronically Steered Antennas (ESAs), highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
