Press Release

Leading Global Satellite Operator Awards Gilat Over $20 Million in SkyEdge Orders

Orders for advanced systems, network management and ongoing services reflect continued customer investment in Gilat's multi-orbit ground technology

Petach Tikva, Israel, July 15, 2026 - Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, today announced it has received over $20 million in orders from a leading global satellite operator for SkyEdge services and systems. Most of the deliveries are expected within 24 months.

The orders demonstrate continued demand for Gilat's satellite communications solutions supporting multi-orbit connectivity. They include ongoing services, advanced ground segment systems, and network management capabilities that improve network performance, scalability, and operational efficiency.

As the satellite industry continues its evolution toward multi-orbit architectures, operators require technologies and services that enable seamless operations across increasingly sophisticated network environments. Gilat's comprehensive portfolio supports a broad range of applications, including mobility, enterprise broadband, cellular backhaul, and other high-demand communications services, helping operators optimize network resources, enhance service delivery, and provide reliable, high-performance connectivity to end users worldwide.

“These significant orders underscore the confidence leading satellite operators place in Gilat’s services, technology and systems as they continue to expand and enhance their networks,” said **Ron Levin, President of Gilat’s Commercial Division**. “We are proud of the trust our customers place in Gilat as they continue to evolve their networks for an increasingly multi-orbit world. These awards reinforce the strength of our long-term relationships and our commitment to helping customers address increasingly complex connectivity requirements."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and Electronically Steered Antennas (ESAs), highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat’s products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
