

Gilat Receives Approximately \$6 Million in Orders Supporting U.S. Army Global Communications Operations

Strengthening Gilat Defense's multi-year partnership supporting U.S. Army mission readiness

Petah Tikva, Israel, March 10, 2026 – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that Gilat DataPath has received approximately \$6 million in new orders to continue delivering field and technical services in support of the U.S. Army. Services will be delivered over the next 6 months.

This order extends Gilat's support for another period as part of its multi-year engagement with the U.S. Army's Program Executive Office for Command, Control and Communications Networks (PEO C3N) under the GTACS II contract vehicle.

"This next phase of orders reflects the U.S. Army's continued confidence in Gilat to support operational readiness with proven, dependable capabilities," said Nicole Robinson, President of Gilat DataPath. "Our team remains deeply committed to delivering the responsiveness, expertise, and service quality required to support the Army's demanding global mission."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
