

Gilat Secures Over \$10 Million in Additional SkyEdge IV Orders from a Leading Satellite Operator

Additional orders underscore continued customer investment in SkyEdge IV, with deliveries scheduled over the next 12 months

Petah Tikva, Israel, October 7, 2026 - Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that it has secured over \$10 million in orders from a leading satellite operator for its multi-orbit SkyEdge IV platform. The systems are scheduled for delivery over the next 12 months.

The orders demonstrate ongoing demand for advanced connectivity services and will support the continued growth of high-capacity satellite networks serving a broad range of applications, including In-Flight Connectivity (IFC). Gilat's SkyEdge IV platform provides the scale and operational efficiency needed to support increasing traffic volumes and diverse service offerings.

These orders underscore the continued adoption of SkyEdge IV by leading satellite operators and highlight the platform's role in supporting large-scale network deployments. As operators expand existing services and introduce new capabilities, they continue to rely on proven ground segment technologies that can support their long-term business objectives.

"We are pleased to continue supporting this leading satellite operator as it advances its network initiatives," said **Ron Levin, President of Gilat Commercial Division**. "These orders reaffirm the value of our SkyEdge IV platform and the confidence customers place in Gilat's technology. Long-term customer relationships such as this one reflect our ability to deliver solutions that help operators enhance their networks and expand service offerings across IFC and other applications."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and Electronically Steered Antennas (ESAs), highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
