

Gilat Secures Over \$8 Million in Additional Orders from the U.S. Department of War

Field services and SATCOM upgrade orders expand Gilat Defense's presence across U.S. defense programs

Petah Tikva, Israel, October 8, 2026 - Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that Gilat DataPath has received orders totaling more than \$8 million from the U.S. Department of War for field services and SATCOM system upgrades supporting deployed military communications systems. Deliveries are expected over the next 12 months.

The orders further expand Gilat Defense's presence across U.S. defense programs and reflect continued demand for its operational support capabilities and SATCOM expertise.

The orders build on Gilat DataPath's ongoing support of deployed U.S. military communications systems, combining field services with SATCOM upgrades to address evolving operational needs. This combination enables Gilat Defense to support customers throughout the operational life of their systems, maintaining existing capabilities while helping adapt networks to new mission requirements..

"These awards reflect the U.S. Department of War's continued confidence in Gilat Defense's ability to support mission-critical communications for defense operations," said **Nicole Robinson, President of Gilat DataPath**. "By combining advanced field services with proven SATCOM system upgrade capabilities, we help ensure deployed communications systems remain ready to support operational requirements whenever and wherever they are needed."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and Electronically Steered Antennas (ESAs), highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
