

## Press Release

### **Gilat Receives \$9 Million Order for Defense SATCOM Solutions from Israel's Ministry of Defense**

*Gilat Defense will deliver advanced modems to support and scale secure, mission-critical satellite communications for defense operations*

**Petah Tikva, Israel, February 17, 2026** – Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions, and services, announced today that its defense division, Gilat Defense, has been awarded a contract valued \$9 million by Israel's Ministry of Defense for the delivery and integration of satellite communication systems and services.

The order includes next generation defense modems which are a key component of Gilat's ground system Defense solution. These modems will significantly enhance the system's ability to deliver secure, reliable, and flexible communications. Built for mission-critical operations, they are engineered to operate dependably in harsh and unpredictable environments, ensuring robust connectivity across a wide range of operational scenarios.

“This contract highlights the continued importance of advanced SATCOM as an enabler for modern defense forces,” said **Gilad Landsberg, President of Gilat Defense**. “We are proud to once again deliver high-performance solutions to the Israel Ministry of Defense, reflecting the depth of our defense expertise and our commitment to meeting complex operational requirements.”

## About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and ESAs, highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat’s products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
