Press Release

Gilat Wins Multi-Million-Dollar Sidewinder SATCOM Programs for Government and Special Mission Aircraft

Awards span Boeing, Airbus and Bombardier platforms for head-of-state, VVIP, border patrol and ISR applications, with deliveries expected over the next 12 months

Petah Tikva, Israel, November 17, 2026 - Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, today announced that its subsidiary, Gilat Stellar Blu, has secured multi-million-dollar VVIP and government aircraft programs for Sidewinder SATCOM terminals. The awards support head-of-state, other government/VIP, border patrol and intelligence, surveillance and reconnaissance (ISR) missions, reinforcing Gilat's growing presence in mission-critical airborne connectivity. Delivery is expected over the next 12 months.

The programs span Boeing, Airbus and Bombardier aircraft, extending Sidewinder's application across government and special mission aviation, alongside its commercial aviation business. Gilat is providing its Sidewinder multi-orbit SATCOM solution together with the engineering, aircraft modification and certification services required for deployment on VVIP and government aircraft. Sidewinder combines electronically steered antenna technology with connectivity across GEO and LEO satellite networks.

"These awards demonstrate Sidewinder's relevance across government and special mission aviation," said Mike Pigott, President of Gilat Stellar Blu. "By combining multi-orbit connectivity with in-house engineering and certification expertise, we help customers meet their aircraft integration and operational requirements."

About Gilat

Gilat Satellite Networks Ltd. (NASDAQ: GILT, TASE: GILT) is a leading global provider of satellite-based broadband communications. With over 35 years of experience, we develop and deliver deep technology solutions for satellite, ground, and new space connectivity, offering next-generation solutions and services for critical connectivity across commercial and defense applications. We believe in the right of all people to be connected and are united in our resolution to provide communication solutions to all reaches of the world.

Together with our wholly owned subsidiaries Gilat Wavestream, Gilat DataPath, and Gilat Stellar Blu, we offer integrated, high-value solutions supporting multi-orbit constellations, Very High Throughput Satellites (VHTS), and Software-Defined Satellites (SDS) via our Commercial and Defense Divisions. Our comprehensive portfolio is comprised of a software-defined platform and modems, high-performance satellite terminals, advanced Satellite On-the-Move (SOTM) antennas and Electronically Steered Antennas (ESAs), highly efficient, high-power Solid State Power Amplifiers (SSPA) and Block Upconverters (BUC) and includes integrated ground systems for commercial and defense markets, field services, network management software, and cybersecurity services.

Gilat's products and tailored solutions support multiple applications including government and defense, IFC and mobility, cellular backhaul, enterprise, aerospace and critical infrastructure clients all while meeting the most stringent service level requirements.
